

INTER-VIEW

Interval recording simplified

#1

Setup your interview

The screenshot shows the 'INTER-VIEW | New Script' interface. It has three main sections: 'Title' with a text input 'Create your script'; 'Description' with a text input 'Put some description for yourself'; and 'Metadata' with two text inputs: 'Ask a meta question' and 'And something like an e-mail address'. To the right is the 'Questions' section with three text inputs: 'This is an interview question', 'Ask the next question', and 'Ask some more question'. Below these is an 'Add Question' button. At the bottom are 'Cancel' and 'Save Script' buttons.

Interview!

#2

The screenshot shows the 'INTER-VIEW | Interviewer Pre Meta' interface. It features a progress bar at the top with five stars (three yellow, two grey). The main area displays 'This is the question you are currently asking?'. Below this, it says 'next: This question is the one coming up?'. On the left, there's a sidebar with 'pseudo' (John Doe), 'Ask a meta question' (Chocolate), and 'Tag' (Interest). On the right, there's a sidebar with 'And something like an e-mail address' (test@test.com) and an 'End Interview' button. A large blue arrow points from the main area to the right sidebar.
